BaBylissPRO®

IMPORTANT SAFETY CAUTIONS

- Original instructions. Read these safety precautions carefully before using the unit! This appliance should only be used as described within this instruction booklet. Please retain for future reference.
- **WARNING! THIS APPLIANCE GETS HOT!**
- **BURN HAZARD:** keep appliance out of reach from young children, particularly during use and cool down.
- Always take extra care if used on children or near children.
- Do not use on very young children.
- **WARNING:** Do not use this device in a bathtub, shower, or water-filled reservoir.
- **UK Only:** This appliance must not be used in the bathroom. 
- **Outside the UK:** If using the appliance in a bathroom, unplug after use as the proximity of water can be dangerous even if the appliance is switched off. For additional protection the installation of a residual current device (RCD) with a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
- Do not immerse the appliance into water or other liquids.
- Always inspect the appliance before use for noticeable signs of damage. Do not use if damaged, or if the

appliance has been dropped. In the event of damage, discontinue use immediately. Contact the Customer Care Line.

- Do not use the appliance if the lead is damaged. In the event of damage, discontinue use immediately. If the lead is damaged it must be replaced by the manufacturer. Return the appliance to the Customer Care Centre. No repair must be attempted by the consumer.
- Do not leave the appliance unattended when switched on or plugged in.
- During use, do not place the appliance on any heat sensitive surface, even when using the heat mat provided.
- **WARNING!** Only hold the handle during use. Do not touch the hot surfaces of the appliance when in use as these can be extremely hot.
- Take care to avoid the hot surface of the appliance coming into direct contact with the skin, in particular the eyes, ears, face and neck.
- In the event of the appliance being left switched on but unused for more than 20 minutes, the appliance will automatically shut off. If you wish to continue using the appliance simply turn it on again.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should

be supervised to ensure that they do not play with the appliance.

- This appliance should not be cleaned or maintained by children.
- Allow the appliance to cool before storing away.
- After use, do not coil the lead around the appliance as this may cause damage. Instead, coil loosely by the side of the appliance.
- Do not use any accessories other than those recommended by BaBylissPRO.
- Always unplug the appliance when not in use or before cleaning.
- This device is designed to be used for professional use.
- Always place the appliance with the stand, if any, on a heat-resistant, stable flat surface.
- This product complies fully with all appropriate legislation and the Standards relevant to this type and class of appliance. We are an ISO9001:2015 certified company that continually evaluates our Quality Management System performance. If you have any queries regarding product safety and compliance, please contact the Customer Care Line. (See 'UK After Sales Service' section for further information).

WEEE-END-OF-LIFE ELECTRICAL AND ELECTRONIC EQUIPMENTS

- In everybody's interest and to actively participate in protecting the environment and human health:
- Do not discard your products with your unsorted household wastes.
- The WEEE (wastes of electrical and electronics

equipment) must be collected separately.

- Use the return and collection systems dedicated to the WEEE available in your area. In this way, some materials can be recycled, re-used or recovered.
- By ensuring this product is disposed of properly, you will help prevent potential negative consequences for the environment and human health due to possible content of hazardous substances.
- For more detailed information about the disposal of this product, please contact your local household waste disposal service.

www.babylisspro.com

IMPORTANT! This appliance is designed to reach very high temperatures. If the maximum setting is too hot for the hair type then select a lower temperature setting.

TEMPERATURE SETTING GUIDE

This appliance features delayed activation control.

Immediately after turning the appliance on, you are able to adjust the temperature settings. After 5 seconds of the appliance being on, the temperature buttons will automatically lock. To adjust the temperature settings, hold down the '+/-' button for 2 seconds.

This will deactivate the lock mode and allow the settings to be changed. To turn off the appliance whilst in lock mode, hold down the button marked '○' until the appliance switches off.

There are 5 heat settings to select from (150°C-230°C) for styling various hair types. Always start with a lower temperature and increase gradually if required.

- 1x orange LED - 150°C (Fine, fragile hair)
- 2x orange LEDs - 170°C (Coloured or Highlighted hair)
- 3x orange LEDs - 190°C (Medium textured hair)
- 4x orange LEDs - 210°C (Naturally curly or wavy hair)
- 5x orange LEDs - 230°C (Thick, coarse hair)

IONIC TECHNOLOGY

The negative ions generated by the straightening iron eliminate static electricity. With the hair cuticles properly closed, hair is soft and shiny, easy to style.

OPERATING INSTRUCTIONS

- Plug the appliance into a suitable mains socket.
- To switch the appliance on, press the '⏻' button.
- There are 5 temperature settings to select from (refer to 'Temperature Setting Guide' table above). For delicate, fine, bleached or coloured hair, use the lower heat settings. For thicker hair, use the higher heat settings. It is suggested to always complete a test on initial use to ensure the correct temperature is used on the hair type. Start on the lowest setting and increase the temperature until desired result is achieved.
- Use the '+' and '-' buttons to select the temperature required. The orange LEDs will illuminate to show the temperature setting; these will flash until the required temperature is reached.
- The appliance is ready for use when the light stops flashing.
- Always place on a firm surface for safety, using the heat mat provided.
- Do not place the appliance on any heat sensitive surfaces.
- Allow the appliance to heat up before use.
- After use, press and hold the '⏻' button for 1-2 seconds to switch off and unplug the appliance, place in the pocket of the heat mat and allow to cool fully before storing away.

STYLING ADVICE

- Ensure hair is dry and combed through. Divide into sections.

- The plates heat up very quickly and should not touch the skin or scalp. We recommend keeping the iron about 1 cm from the scalp at all times.
- Repeat as necessary through the remaining sections. Use the heat protection mat to place your styler on between each section to protect surfaces.
- After use, press and hold the '⏻' button for 1-2 seconds to switch your styler off and unplug.
- Allow to cool completely before storing away. For extra protection, wrap the styler in the heat protection mat.

AUTO SHUT-OFF

This appliance has an automatic shut off feature for added safety. If the styler is switched on but unused for more than 20 minutes continuously, it will automatically switch off. If you wish to continue using the appliance after this time, simply press the '⏻' button to turn the power on.

HEAT PROTECTION MAT

The appliance comes with a heat protection mat for use during and after styling. During use do not place this appliance on any heat sensitive surface, even when using the heat mat provided. After use, switch off and unplug the appliance. Immediately wrap the appliance in the heat mat provided and allow the appliance to fully cool down before storing away. Continue to keep it out of the reach of children as it will remain hot for several minutes.

MULTI-VOLTAGE

This appliance is designed to automatically adjust to different voltage levels, so it can be used in many countries. You can take your appliance with you when traveling or use it at home as part of your daily routine. You may still need a plug adaptor to fit the different plug types used in different countries. This is not supplied.

Please note: When using a plug adaptor, this may impact the heat up time of the appliance, but it will not impact the performance.

CLEANING AND MAINTENANCE

In order for your styler to retain its top performance it is important to make sure there is no product build up on the plates. When the styler is completely cool and unplugged, use a damp cloth over the surface of the plates to wipe away any styling product.

- Keep the power cord away from the hot plates at all times.
- Before storing away, always allow the plates to cool down and place in the heat mat provided for extra protection.
- To prevent cord damage, do not wrap the cord around the styler – always store the cord next to it.

UK GUARANTEE

This BaBylissPRO appliance is guaranteed for professional use for 1 year and is only valid within the United Kingdom.

Exclusions

This guarantee will no longer be valid meaning that The Conair Group Ltd will not be liable to repair or replace your product where:

- The appliance has been used on a voltage supply other than that which is marked on the product, or advised within this instruction booklet.
- The appliance has been purchased from an unauthorised stockist*.
- Repairs or alterations have been attempted by unauthorised persons.
- The failure of the appliance is a direct result of misuse.
- The failure is a result of not following the instructions for use.

This guarantee does not cover any cosmetic damage due to misuse of the product nor any damage to persons or property that occurs because of product misuse.

* unauthorised stockists include, but are not limited to online auction sites, private sellers and those selling second hand goods, refurbished products etc.

Please contact the Conair Customer Care Line on 03705 133 191 (09:00 to 17:00 Monday to Friday) or e-mail ukinfo@conair.com for further information on authorised stockists.

It is important to retain your proof of purchase. We recommend attaching your receipt to this page.

Even where a refund may be applicable, no refund will be provided without a valid receipt or proof of purchase, we will only be able to offer a repair or replacement service. Please note this does not apply if the product was purchased directly from The Conair Group Ltd.

Guarantees on replacement products run from the original purchase date or date of delivery, whichever is later, and not from the date of replacement. This guarantee is an additional benefit and does not affect your statutory rights as a consumer.

If you have any queries regarding this guarantee please contact the Conair Customer Care Line on 03705 133 191 (09:00 to 17:00 Monday to Friday) or e-mail ukinfo@conair.com.

UK AFTER SALES SERVICE

For further advice on using the appliance or should you need to return your product, please contact the Conair Customer Care Line on 03705 133 191 (09:00 to 17:00 Monday to Friday) or e-mail your enquiry to ukinfo@conair.com.

Return address:
Customer Care Centre
Conair Logistics
Unit 4, Revolution Park
Buckshaw Avenue
Buckshaw Village
Chorley
PR7 7DW

Please enclose your returns number, name and address details, together with a copy of proof of purchase and details of the fault.

Please note this Instruction Booklet is not the guarantee
